

- for your plants, fruits and vegetables

Specific information – provided by nature – build the base for the encoding of our **SUNCARDS**. This information give us the opportunity to gently intervene in individual areas, to slow down the natural decay process and to strengthen positive tendencies, so food will last, complete their maturation process and thus can develop their full splendour/aroma.

MAKE THE TEST!

Cut a lemon into two halves and put one of them on our **SUNCARD-FRUIT** - the other half just leave on the cutting base (minimum distance 1/2 meters.) Wait about 5 minutes and then try the lemon half that you have placed on the **SUNCARD**. Then try the other half. Note the difference? Unbelievable but true!

- for your plants, fruits and vegetables

SUNCARD – FLOWER

- flowers and plants are stronger and healthier
- the flowering period is extended
- colours of flowers and plants are more intense and radiant

APPLICATION

Better plant growth, more blooms made easy: Put fresh flowers in a glass vase or potted plants on the **SUNCARD – FLOWER** or insert the card into your watering can.

The **SUNCARD – FLOWER** will send information through the water to the plants that will make them grow better and bloom longer!

Minor cause, blooming effect.

The **SUNCARD – FLOWER** supports and enhances the durability, freshness and colour of flowers and acts against premature wilting.

SUNCARD – FRUIT

- completes the ripening process of fruits
- decreases the acidity, thus reflux symptoms
- reduces the aggressive acidic taste
- prevents stomach discomfort and heartburn
- harmonizes the flavour of the fruit

APPLICATION

The **SUNCARD – FRUIT** makes fruits and vegetables milder, more digestible and simply better!

Place fresh onion, garlic or fruits with high acidity for 4 to 6 minutes on the **SUNCARD – FRUIT** or place a bowl of fruit salad, fresh strawberries or other fruits or vegetables on it. Spicy vegetables lose their acidity – they become milder and thus unpleasant side effects such as belching or heartburn are being reduced.

The **SUNCARD – FRUIT** also affects the natural acidity of coffee and makes it easier to digest.

Over 95% of all testing people confirm these results!

- for your plants, fruits and vegetables

SUNCARD – VEGGIES

- supports the maturation process of vegetables
- prolongs the duration of the freshness of the vegetables
- onion, garlic, eggplant (and other indigestible vegetables) are more digestible
- reduces stomach discomfort and reflux symptoms
- takes the aggressive and bitter flavours

APPLICATION

Convincing in everyday use!

Just place a **SUNCARD VEGGIE** in the vegetable compartment of your refrigerator.

It supports and enhances the shelf life of foods and helps to preserve their freshness and colour.

Even sophisticated salads as „ Lollo Rosso „ stay fresh longer in the vegetable drawer.
